# CORINNE SIM

## A STAR IS BORN!

— *New Yellow* —  
**CORINNE SIM — Restricted until MAY 1960**

The color is a clear, soft light yellow. It is a truer yellow than other sports of Sim which have been introduced. CORINNE does not darken in the winter as other yellow varieties, and although it becomes lighter in the summer, it still retains its attractive, clear yellow color. It has all the desirable qualities of the parent variety, being a clean and rapid grower, and a heavy producer of fine flowers which split very little and which ship and keep splendidly.

### *Prices*

**\$20.00 per 100**

**\$160.00 per 1000**

**250 at the 1000 rate**

**No order accepted for less than 100.**
